INDEX TO VOLUME 8

This index covers the issues for 1995, as follows: January–March, pages 1–62; April–June, pages 63–176; July–September, pages 177–234; and October–December, pages 235–286. Where necessary, the issue number is shown in parentheses before the page number.

Subjects

Age factor(s), elderly men, grip strength of, 27
American Society of Hand Therapists, anecdotes about (Barr lecture), 5
American Society of Hand Therapists, future of (1995 presidential address), 237
American Society of Hand Therapists, Seventeenth Annual Meeting, abstracts of, 49
Anatomy, of hand and forearm, 68
Anatomy, of thumb, 106
Arthroscopy, in wrist pain evaluation, 10
Assessment instrument(s), evaluation guidelines for, 144
Athletic injuries, silicone rubber splinting for, 252

Ballottement test, in pain evaluation, 10
Biomechanics, basic, 79
Biomechanics, computer simulation of, 167
Biomechanics, history of, 63
Biomechanics, introduction to special issue about, 63
Biomechanics, of joint stiffness, 91
Biomechanics, and tendon transfers, 115
Biomechanics, of tissue growth, 91

Caillet, R., *Hand Pain and Impairment* (4th ed.) (book review), 220
Carpal mechanics, 97
Carpal tunnel syndrome, literature search strategy for, 212
Carpal tunnel syndrome, in pregnancy, splinting and, 31
Cast(s), plaster, soft-tissue growth and remodeling with, biomechanics of, 131
Casting, plaster, serial, modification of technique for, 215
Cohen, I. K., Diegelman, R. F., and Lindblad, W. J. (eds.), *Wound Healing: Biochemical and Clinical Aspects* (book review), 45
Cold therapy, controlled, vs ice application with dressings, 249
Compliance, with rehabilitation, 18
Computer simulation(s), of upper extremities, 167
Controlled cold therapy device, 249
Controlled-motion regimen, for extensor tendon repairs, 195
Cost–benefit analysis, of rehabilitation, 18
Cubital tunnel surgery, early vs late range of motion after, 245
Cubital tunnel surgery, treatment for, 245
Cumulative trauma disorder(s), literature search strategy for, 212
Cyclist's palsy, manual muscle strength testing and dynamometry for, 191

Delay(s), in postoperative therapy, effects of, 23
Dennys splint, modification of, 216
de Quervain's release with basal joint arthroplasty, splint for, 38
Discoordinate cocontraction, management of (abstract), 56
Distal interphalangeal joint, splint for, stability of, 269
DOLLS technique, 206
Double-loop locking suture, in early mobilization for flexor tendon repairs, 206
Dressings, ice vs controlled cold therapy with, 249
Dupuytren's disease, current status of (guest editorial), 181
Dynamic assist orthosis(es), swing traction splint, 265
Dynamic hand-based orthosis, for extensor tendon repairs, 195
Dynamic properties of soft tissues, 85
Dynamic splinting, glove splint for, 36
Dynamic traction splinting, for intra-articular fractures (abstract), 50
Dynamic wrist splint, low-profile, 38
Dynamics, of work simulator, 199
Dynamics, of work simulator (abstract), 52
Dynamics, of work simulator (letter), 42
Dynamometer(s), accuracy of (abstract), 56
Dynamometry, for bilateral ulnar neuropraxia, 191

Early mobilization, postoperative, for extensor tendon repairs, 195
Edema, hand volume estimation in, 258
Elbow, flexion and extension of, after cubital tunnel surgery, 245
Elbow position, and grip strength of elderly men, 27
Evaluation guidelines, for assessment instruments, 144
Extensor tendon repair(s), zone III, early postoperative mobilization for, 195

Fatigue, grip strength tests in assessment of (abstract), 56
Flatt, A. E. (ed.), *The Care of Congenital Hand Anomalies* (book review), 44
Flexor tendon repair(s), double-loop locking suture in early active mobilization for, 206
Flexor tendon repair(s), zone II, delayed therapeutic intervention after, 23
Forearm, anatomy of, 68
Forearm pronation, measurements of, intertester reliability of (abstract), 50
Force, measurement of, 79
Fracture(s), intra-articular, dynamic traction splinting for (abstract), 50
Fracture(s), joint, ORIF, dynamic traction, and early mobilization for (abstract), 49
Fracture(s), of PIP joint, unstable intra-articular, dynamic traction splint for, 216
Freedom of speech, research reporting and legal liability, 35

Gender, hand volume assessment by, 258
Glove splint, for dynamic-component attachment, 36
Goniometric measurement for forearm rotation, intertester reliability of (abstract), 50
Goniometry, of joints, interrater reliability, validity, and placement method of (abstract), 54
Grip strength, of elderly men, elbow position and, 27
Grip strength test(s), in attrition rate deficit assessment (abstract), 56

Hand, anatomy of, 68
Hand, mechanics of, 68
Hand in art, (1):13A; (3):13A; 235
Hand volume, contralateral hand size in prediction of, 258
Handedness, and grip strength in elderly men, 27
Handedness, in hand volume assessment, 258
Hand-held test instrument(s), Semmes-Weinstein monofilaments, 155
Health beliefs, and patient compliance with rehabilitation, 18
Health strategy(ies), for rehabilitation compliance, 18
Hoppenfeld, S., and Zeide, M. S. (eds.), *Orthopaedic Dictionary* (book review), 273
Hypersensitivity, iontophoresis treatment for (abstract), 57

Ice application, vs controlled cold therapy with dressings, 249
Immobilization, postoperative, duration effects of, 23
Instrument(s), assessment, evaluation guidelines for, 144
Instrumentation, clinical assessments with, objectivity in, 149
Iontophoresis treatment(s), for traumatic localized hypersensitivity (abstract), 57
Irwin, L. C., and Irwin, G. G., *Finger Fitness: The Art of Finger Control* (book review), 46

Joint fracture(s), ORIF, dynamic traction, and early mobilization for (abstract), 49
Joint stiffness, mechanical factors in, 91
Joint stiffness measure(s), objective, 163
Journal(s), literature search strategy for, 212

Journal of Hand Therapy, international issue (letter), 42
Journal of Hand Therapy, position of (editorial), 1

Kinematic model(s), of upper extremity, 167
Kinematics and kinetics, 79

Lawsuit(s), following product criticisms, 35
Legal liability, for product criticisms, 35
Libel suit(s), product criticisms and, 35
Lister, G. (ed.), *The Hand: Diagnosis and Indications* (book review), 274
Literature abstracts, 47, 221, 276
Literature search strategy(ies), for carpal tunnel syndrome/cumulative trauma disorders, 212
Little finger, plaster casting of, 215
Low-profile dynamic wrist splint, 38
Low-temperature thermoplastic material(s), in splints, properties of, 138

Manual muscle strength testing, and dynamometry for bilateral ulnar neuropraxia, 191
Manual muscle strength testing, reliability of, 185
Matsen, F. A., III, Lippitt, S. B., Sidles, J. A., and Harryman, D. T., II, *Practical Evaluation and Management of the Shoulder* (book review), 219
Measurement(s), accuracy of, intertester (abstract), 50
Measurement(s), of biomechanics, 79
Measurement(s), goniometric, interrater reliability of (abstract), 54
Measurement(s), of hand volume, 258
Measurement(s), with instrumentation, objectivity in, 149
Metacarpophalangeal joint(s), fifth, MCP dorsal blocking splint in preventing hyperextension and rotation deformity of (abstract), 57
Microfoam tape, as splint lining, 38
Morrey, B. F. (ed.), *The Elbow and Its Disorders* (book review), 44
Movement diagram measure(s), in shoulder rotation assessment, reliability of (abstract), 54
Murphy supination splint, adaptation of, 269
Muscle strength testing, manual, for bilateral ulnar neuropraxia, 191
Muscle strength testing, manual, reliability of, 185

Nerve(s), peripheral, and hand function, 68
Nerve(s), ultrasound effects on (abstract), 52
Nerve palsy(ies), of thumb, 106
Nerve threshold detection, and Semmes-Weinstein monofilaments, 155
Nervous system, discoordinate cocontraction management (abstract), 56
Neuropathy(ies), manual muscle strength testing reliability in, 185
Neuropathy(ies), ulnar, treatment for, 245
Neuropraxia, ulnar, manual muscle strength testing and dynamometry for, 191
Norris, R., *The Musician's Survival Manual: A Guide to Preventing and Treating Injuries in Instrumentalists* (book review), 273

Objectivity, of clinical assessments, 149
Occupational injury(ies), judgment of (letter), 42
Oklahoma City bombing, ASHT member report of (editorial), 177
Open reduction with internal fixation, for joint fractures (abstract), 49
Opponens plasty(ies), biomechanics of, 115
Orthosis(es), dynamic hand-based, for extensor tendon repairs, 195
Orthosis(es), glove splint, 36
Orthosis(es), silicone rubber, for athletic injuries, 252
Orthosis(es), swing traction splint, 265
Orthosis material(s), soft-tissue responses to, 85
Outrigger(s), in product comparison (letters), 41

Pain, wrist, evaluation of by provocative tests, 10
Pain, wrist, evaluation of by provocative tests (abstract), 55
Palsy(ies), cyclist's, 191
Passive range-of-motion joint-stiffness measure(s), 163
Patient compliance, with rehabilitation, 18
Patient satisfaction, after thumb arthroplasties (abstract), 51
Patient–practitioner relationship, and rehabilitation compliance, 18
Plaster casting, biomechanics of soft-tissue growth and remodeling with, 131
Plaster casting, serial, modification of technique for, 215
Plaster of Paris splint(s), 38
Playing splint(s), silicone rubber, 252
Polymer(s), hydrocarbon, soft-tissue responses to, 85
Postoperative therapy, timing of, 23
Pregnancy, carpal tunnel syndrome during, splinting for, 31
Product comparison(s), fairness in (letters), 41
Product criticism(s), lawsuits and, 35
Product reliability assessment(s), of BTE work simulator, 199
Prosthesis material(s), soft-tissue responses to, 85
Provocative test(s), in wrist pain evaluation, 10
Provocative test(s), in wrist pain evaluation (abstract), 55
Proximal interphalangeal joint(s), dynamic traction splint for, 216
Proximal interphalangeal joint(s), swing traction splint for, 265
Purtilo, R., *Ethical Dimensions in the Health Professions* (book review), 219

Radial carpal instability(ies), mechanics of, 97
Range of motion, early vs late after cubital tunnel surgery, 245
Range of motion, postoperative, and timing of therapy, 23
Range-of-motion joint stiffness measures, 163
Rehabilitation, compliance with, 18
Rehabilitation, after cubital tunnel surgery, 245
Rehabilitation, after tendon transfer, 115
Reliability, interrater, of goniometry (abstract), 54
Reliability, intertester, of forearm pronation measurements (abstract), 50
Reliability, of manual muscle strength testing, 185
Reliability, of movement diagram measures and goniometry (abstract), 54
Research, libel suits and product criticisms, 35
Research, sample size determination in, 264
RTV silicone rubber, in splints, 252

Sample size, determination of, 264
Satisfaction, patient, after thumb arthroplasties (abstract), 51
Scaphoid fracture(s), mechanics of, 97
Scaphoid shift test, in pain evaluation, 10
Scientific validity, of hand therapy literature (Barr lecture), 5
Semmes-Weinstein monofilaments, and threshold detection, 155
Shoulder rotation, movement diagrams and goniometry in assessment of (abstract), 54
Silicone rubber splinting, for athletic injuries, 252
Simulation(s), computer, of upper extremities, 167
Skin temperature, postoperative, controlled cold therapy vs ice effects on, 249
Skin tension, stress and strain effects on, 91
Soft tissue(s), dynamic properties of, 85
Soft tissue(s), interface with materials, 85
Soft-tissue growth and remodeling with plaster casting, biomechanics of, 131
Soft-tissue remodeling, splints and, 124
Specialization, in medicine (guest editorial), 240
Splint(s), combination, for DIP joint stability and PIP joint mobility, 269
Splint(s), Dennys, modification of, 216
Splint(s), design of, 124
Splint(s), design of, 265
Splint(s), design of (practice forum), 269
Splint(s), design of, for thumb, 106
Splint(s), dynamic traction for unstable PIP-joint fractures, modified, 216
Splint(s), fabrication of (practice forum), 269
Splint(s), glove, for dynamic-component attachment, 36
Splint(s), hand-based dynamic extension, for extensor tendon repairs, 195
Splint(s), low-temperature thermoplastic materials in, properties of, 138
Splint(s), mallet finger, conversion of into boutonnière splint, 214
Splint(s), MCP dorsal blocking, in preventing hyperextension and rotation deformity (abstract), 57
Splint(s), mechanics of, 124
Splint(s), Murphy supination, adaptation of, 269
Splint(s), plaster of Paris, 38
Splint(s), silicone rubber, for athletic injuries, 252
Splint(s), supination, adaptation of, 269

Splint(s), swing traction, for PIP joint, 265
Splint(s), wrist, low-profile dynamic, 38
Splint lining(s), microfoam tape, 38
Splint migration, controlling, 38
Splinting, for carpal tunnel syndrome in pregnancy, 31
Splinting, dynamic, for intra-articular fractures (abstract), 50
Splinting material(s) (practice forum), 38
Spring-loaded traction, concepts of and rationale for (abstract), 53
Stanley, J., and Saffar, P., *Wrist Arthroscopy* (book review), 219
Statistical power, and sample sizes, 264
Strength testing, manual, for bilateral ulnar neuropraxia, 191
Strength testing, manual, reliability of, 185
Stress and strain, measurements of, 79
Stress and strain, in skin tension, 91
Stress and strain, soft-tissue responses to, 85
Strickland, J. W. (ed.), *The Thumb* (Hand and Upper Extremity Series, Volume II) (book review), 273
Supination splint, adaptation of, 269
Surgeon(s), hand therapists' relationship with (guest editorial), 2
Sutures(s), double-loop locking, in early mobilization for flexor tendon repairs, 206
Swing traction splint, 265
Symbiosis, of therapists and surgeons (guest editorial), 2

Tactile sensation, assessment of, objectivity in, 149
Tactile threshold detection, and Semmes-Weinstein monofilaments, 155
Tendon repair(s), delayed therapeutic intervention after, 23
Tendon repair(s), extensor, early mobilization method for, 195
Tendon repair(s), flexor, double-loop locking suture in early active mobilization for, 206
Tendon transfer(s), biomechanics application to, 115
Tension, soft tissue, biomechanics of, 91
Therapist–surgeon relationship (guest editorial), 2
Thermoplastic material(s), low-temperature, properties of in splints, 138
Threshold detection, and Semmes-Weinstein monofilaments, 155
Thumb, anatomy of, 106
Thumb, movements, motions and moments of, 106
Thumb arthroplasty(ies), patient satisfaction after (abstract), 51
Timing, of postoperative therapeutic interventions, 23
Tissue(s), soft, dynamic properties of, 85
Tissue(s), soft, interface with materials, 85
Tissue growth, mechanical factors in, 91
Torque range-of-motion joint-stiffness measure(s), 163
Traction, spring-loaded, concepts of and rationale for (abstract), 53
Trigonometric concepts of kinematics and kinetics, 79

Ulnar carpal instability(ies), mechanics of, 97
Ulnar nerve, in cyclist's palsy, 191
Ulnar neuropathy, treatment for, 245
Ulnar neuropraxia, manual muscle strength testing and dynamometry for, 191
Ulnar translation, mechanics of, 97
Ulnomeniscotriquetral dorsal glide test, in pain evaluation, 10
Ultrasound, effects of on normal and regenerating nerve (abstract), 52
Upper extremity computer simulation of, 167

Work simulator(s), BTE, dynamic mode of, reliability of, 199
Work simulator(s), BTE, dynamic mode of, reliability of (abstract), 52
Work simulator(s), BTE, dynamic mode of, reliability of (letter), 42
Wrist, biomechanics of, 97
Wrist pain, evaluation of by provocative tests, 10
Wrist pain, evaluation of by provocative tests (abstract), 55
Wrist splint, dynamic, low-profile, 38
